Below is an easy step-by-step outline of how you can get started using the PsychProfiler straight away.

For a more detailed description, please see the PsychProfiler Software Guide at www.psychprofiler.com

Using the Multi-Use Licence:

1. Navigate to the PsychProfiler Assessment and Scoring Platform:
<https://www.psychprofiler.com/assessment/public> (we recommend you bookmark this address)
2. Enter your 6-letter Multi-Use Licence in the "Token Number/Licence Code" field at bottom and click 'Go'.
3. On this screen, you will see how many assessment tokens your Licence has remaining. Click 'Next'.
4. Select the required Assessment (i.e., Child or Adult) and Assessment Type (i.e., Self, Parent, Teacher, Observer) and enter some simple details such as the name of the person to be assessed.

Automatically deliver the single-use Assessment Token and hyperlink of the form to the person that is to complete the assessment (e.g., the parent, teacher) by including their email address in the 'Token Email Address' and 'Confirm Token Email Address' fields.

Automatically have a PDF copy of the report delivered to your preferred destination by including the email address in the 'Final Report Email Address' and 'Confirm Final Report Address' fields.

The check box for 'Stop Display of Final Report at Completion' is activated automatically when you put in an email address for the report to be sent to. This stops the person completing the assessment form to be able to view the results.

Once you have entered all of the details you wish to include, click 'Next'

5. A 'Thank you' screen will appear indicating that the Token and information has been successfully emailed to the intended recipient. Make sure you copy and paste each person's email address and Token number into an archive document so that you can resend via standard email, or access the report later.
